THE NEW YORK SUN FOR 1879.

THE SUN will be printed every day during the year to come. Its purpose and method will be the same as in the past: To present all the news

the heavens fall.

THE SUN has been, is and will continue to be independent of everybody and everything save the Truth and its own convictions of duty. That is the only policy which an honest news pa er need have. That is the policy which has won for this newspaper the confidence and friendship of a wider constituency than was ever enjoyed by any other American jeurnal. The cus is the newspaper of the people. It is not for the rich man against the poor man, or for the poor man against the rich man, but it seeks to do equal justice to all interests in the community. It is not the organ of any person, c'ass, sect or party. There need be no mystery a out its loves and hates. It is for the honest man against the rogues every time. It is for the honest Democrat as against the dishonest Republican, and for the honest Republican against the dishonest Democrat. It does not take its cue from the utterances of any political organization. It gives its support unpolitical organization. reservedly when men or measures are in agree ment with the Constitution and with the princi ment with the Constitution and with the principles upon which this republic was founded for the people. Whenever the Constitution and constitutional principles are violated—as in the outrageous compiracy of 18.6, by which a man not elected was placed in the President's office, where he still remains—it speaks out for the right. That is The tun's idea of independence. In this respect there will be no change in its programme for 1879.

The bun has fairly carned the hearty hatred to rascale, fraude, and humbugs of all sorts and sizes. It hopes to deserve that baired not less in the year 1879 than in 18.8, 1877, or any year gone by. The Sun is printed for the men and women of to-day, whise concern is chiefly with the affairs of to day. It has both the disposition and the ability to afford its readers the promptest, fullest and most accurate intelligence of whatever in the wide world is worth attention.

The present disjointed condition of parties in this country, and the uncertainty of the future lend an extraordinary significance to the events of the coming year. To present with accuracy and clearness the exact situation in each of its varying phases, and expound, according to its well-known me'hods, the principles that should gaide us through the labyrinth, will be an important part of The Sus's work for 1879.

We have the means of making The Sus, as a salition of the sus and accuracy. political, a literary, and a general newspaper. more entertaining and more useful than ever before; and we mean to apply them freely. before; and we mean to apply them freely.

Our rates of subscription remain unchanged. For the Dally Sus, a four-page sheet of twenty-eight columns, the price by mail, postpaid, is 55 cents a month, or \$6 50 a year; or including the Sunday paper, an eight-page sheet of fifty-six columns, the price is 65 cents a month, or \$7.70 a year, postage paid.

The Sunday edition of The Sus is also furnished separately at 81.20 a year, postage paid. The Sunday Sus, in addition to the current news, presents a most entertaining and instructive body of literary and miscellaneous matter, in bulk twice as great and in value not inferior to that of the best monthly magazines of the day, at one tenth of their cost.
